My name is Aboker Khalif from Somalia and I live in Tilburg "The Netherlands" I'm a husband, father, student, employee and self-employed. I'm 25 years old.

I study Software developer at Curio. I'm still a learning programmer & web-developer but my experience grows with the day. I love spending time on fixing little details and optimizing web apps I also like working in a team, you'll learn things faster and therefor get much more information at the end of the day. As the saying goes: 'two heads are better than one'.
